the relationships between religion spirituality health biomedical institutions complementary and alternative healing systems are widely discussed today while many of these debates revolve around the biomedical legitimacy of religious modes of healing the market for them continues to grow the routledge handbook of religion medicine and health is an outstanding reference source to the key topics problems and debates in this exciting subject and is the first collection of its kind comprising over thirty five chapters by a team of international contributors the handbook is divided into five parts healing practices with religious roots and frames religious actors in and around the medical field organizing infrastructures of religion and medicine pluralism and competition boundary making between religion and medicine religion and

epidemics within these sections central issues debates and problems are examined including health and healing religiosity spirituality biomedicine medicalization complementary medicine medical therapy efficacy agency and the nexus of body mind and spirit the routledge handbook of religion medicine and health is essential reading for students and researchers in religious studies the handbook will also be very useful for those in related fields such as sociology anthropology and medicine

first multi year cumulation covers six years 1965 70

traces the islamic healing tradition s interaction with indian society and politics as these evolved in tandem from 1600 to 1900 and demonstrates how an in house struggle for hegemony can be as potent as external power in defining medical social and national modernity a pioneering work on the social and medical history of indian islam

unani medicine in the making examines the institutions and practices of unani medicine the graeco islamic healing practice based on the humoral theory attributed to hippocrates and officially recognized as a system of medicine in india drawing on diverse materials including urdu sources interviews with practitioners and observations in clinics the book explores what unani medicine is today by attending to its multiplicity scrutinizing apparent tensions between the understanding of unani as a system of medicine and its multiple enactments as islamic medicine medical science or alternative medicine ethnographic details provide vivid descriptions of the current practice of unani in india and invite readers to rethink the idea that humoral medicine is incommensurable with modern medicine and science and that the modernization of asian medicines invariably leads to their biomedicalization ultimately the book also discusses the relationship of unani with muslim communities examining the growing practice of prophetic medicine in urban india and increasing representations of unani as islamic medicine
